

## Guidelines for Submitting an Abstract for IFOMPT 2020: Pre and Post Conference Workshops

Pre and post conference workshops aim to broaden the knowledge base and practical skills of IFOMPT 2020 delegates. As such, they will form a key element of the conference. Workshops will run over a one- to two-day period and are expected to be convened and presented by expert clinicians. Financial remuneration and travel support will be provided to the successful applicants. The location of workshops may include the Melbourne Convention and Exhibition Centre, local hospitals and Universities.

It is envisaged that each workshop will offer a mix of tutorials and clinical skill acquisition and that consideration will be given to the differing needs of IFOMPT delegates from around the world. Consequently, workshops can cover foundational knowledge and skills through to expert masterclasses and areas of emerging practice relevant to the practice of musculoskeletal physiotherapy.

Format: One abstract jointly authored by the workshop Convenor and all presenters should provide a comprehensive overview of the workshop and should be structured using the listed headings. The summary and learning objectives will be included in the conference proceedings.

- Title: (maximum 20 words)
- Workshop summary: (maximum 200 words)
- Learning objectives: (up to five)
- Length of the workshop:
- Start and finish times:
- Proposed workshop dates (pre/post-conference):
- Workshop convenor / presenters:
- Intended audience:
- Workshop format: (including room layout and equipment needs)
- Maximum number of participants:
- Has the workshop been accredited with any professional bodies?: (Include CPD points attributable)
- Detailed description of content and timing: (maximum 500 words)
- Pre workshop preparation:
- Participant readings / handout / workbook:
- Restrictions to participation:
- Past participant feedback:
- Any other relevant information:
